Wheaton College (IL) seeks candidates in Computer Science for a tenure track position at the assistant or associate professor rank to start in August 2016.

The primary commitment of a Wheaton College faculty member is to undergraduate teaching within a liberal arts context and from an intentionally Christian perspective. Wheaton College maintains faith and lifestyle expectations for all members of the college community.

The ideal candidate would possess a PhD in computer science, a commitment to undergraduate teaching and the potential for excellence in the classroom, enthusiasm for contributing to computer science curriculum and other areas of program development, a passion for mentoring undergraduates intellectually and spiritually and the ability to sustain, as a secondary activity, a program of research (or comparable scholarly activity) with which she or he can promote undergraduate research.

Applicants from a variety of specialties will be considered. Of particular interest are candidates who can teach a project-based software development course and candidates who can teach courses that support computational science across the college's Division of Natural Sciences.

For more information about the position, see http://cs.wheaton.edu/~tvandrun/position.html .

Applicants should send a letter describing teaching experience and faith commitment along with a current curriculum vitae to Dr. Thomas VanDrunen, Thomas.VanDrunen@wheaton.edu . Promising candidates will then be sent a formal application and requests for statements on teaching and research. Review of completed applications will begin Nov. 1, 2015.

Wheaton College is an evangelical Protestant Christian liberal arts college whose faculty and staff affirm a Statement of Faith and adhere to the lifestyle expectations of the Wheaton College Community Covenant. The College complies with federal and state guidelines for nondiscrimination in employment. Women and minority candidates are encouraged to apply.
